

## INDEX TO VOLUME 59

### January to December, 1954

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alpha-

betically. The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

#### A

##### Accidents

Rochester & Pittsburgh plant explosion, Mar	230
Surface and stripping deaths boost 6 mo fatality rates, Sept	146
U.S. coal-mine fatalities during 1953 and 1952 (table), Feb	90
All-Ohio Safety Congress, Mining Section Meeting at Columbus, Ohio, July	124
American Institute of Mining Engineers Anthracite Section meeting, Dec	81
Central Appalachian Section and W. Va. Institute, joint meetings, July 116, Dec	90
New York meeting, Apr	144
Report on Latin America heard by anthracite section, June	140
American Institute of Mining Engineers and American Society of Mechanical Engineers Fuels Conference, Dec	88
American Mining Congress 1954 Coal Convention scans needs and progress, June	103
American Power Conference—scans fuels future, May	159
American Society of Lubrication Engineers—annual meeting and exhibit, May	160
American Society of Mechanical Engineers and American Institute of Mining Engineers Fuels conference, Dec	88
Angles—how to lay off angles with a tape, Mar	202

##### Anthracite

AIME hears report on Latin America, June	140
Anthracite Industry Domestic Equipment show, May	142
Anthracite Institute's research to end; companies take over, Oct	170
Anthracite musters region's strength, Mar	229

Automatic ash removal, May	142
Film shows anthracite mining and automatic home heating, June	144
Firms curtail deep-mine operations, June	144
Foundation for progress (e), Feb	69
Glen Alden Coal Co. first to use Joy Continuous Miner in deep anthracite mining, Apr	136
How coal's leaders see 1954, Feb	70
Jeddo-Highland's fine-coal plant Harold Davis, Nov	96
Level year in '53, better times ahead (table), Feb	76
National Anthracite Industry Council plans Anthracite Week, Sept	152
New commercial units exhibited, Feb	139
New group formed to stockpile anthracite, Apr	138
New preparation facilities in 1953 (table), Feb	86
Packaged as grill briquets, June	142
Pennsylvania seeks federal aid for mine drainage, Aug	118
Philadelphia & Reading plans research on anthracite gasification, Oct	166
Retailers back anthracite program, Sept	150
Stabilization, higher prices forecast, May	142
Steep pitch mining if today's tools and equipment had been available 100 yr ago, July	76
Stripping and loading with dragline units, June	94
Stripping anthracite at John Booth Inc., Pa. means moving a river, Mar	172
Summer discounts, May	140
Swatara Coal cleaning anthracite completely, Aug	79
Traveling exhibit promotes anthracite to consumers, Sept	138
Architecture in coal mining—new plant in southwestern Pennsylvania, Aug	76

##### Atomic Energy

Atomic power no threat, coal use to grow, AEC says, Sept	136
--	-----

Atomic power—when and how much? Nov	134
Duquesne Light Co. to build first atomic power plant, Apr	138
How Pittsburgh's atomic power plant will look, July	112
Kyger Creek lining stockpile with 50,000 tons of coal to power new atomic plant, Sept	154
Opponents aim barrage at AEC private power plant, Aug	110
Utility to replace TVA power, July	111
Australia—Gasification plant nears completion, Sept	150

##### Awards

Bureau of Mines awards "Sentinels of Safety", July	144
Cash pot for safety prize, July	114
Coal Age cited for safety activities, July	114
Old Timers' cite VPI student, Sept	144
Sharp cited as first recipient of "Climbfield Man of the Year" award, May	140

#### B

##### Bituminous Coal

Bituminous coal in 1953, Jan	111
Bituminous coal mechanically cleaned in 1952, compared with sales of mechanical cleaning equipment in 1953, by states (table), Feb	89
Bureau of Mines reports coal production, Oct	163
Coal resurgent—utility-fuel competition (table), Nov	70
Electric utility coal to rise sharply by 1958, May	142
Executives meet in Chicago to discuss coal's role and problems, June	137
Foundation for progress (e), Feb	69

# Coal Age Index, Vol. 59, January-December, 1954

Government committee meets with industry representatives, Sept	160	What happened to coal and its competitors in 1953 (table), Feb	76	Nomograph simplifies rail-bond testing, Mar	204
How coal's leaders see 1954, Feb	70	"Coal Age"		Peabody No. 10 has built-in charger to serve shuttle cars, Sept	94
Kentucky power plant to use bituminous, May	140	Cited for safety activities, July	114	Peabody No. 10 has skid-mounted m-g set housed in prefab building, Sept	94
Level year in '53, better times ahead (table), Feb	76	Preparation Buying Guide, Mar	75	Post-section circuit breaker easily installed, Nov	108
Mechanical-loading equipment in use in 1952, with 1953 sales (table), Feb	88	Preparation Guidebook, Mar	53-74	Power cable installed in shaft at Orient No. 3, May	116
Milestone—Automatic Solids Fuel Equip. (e), Jan	53	Coal exporters' Association meeting, Dec	84	Power distribution for AC mining, R. G. Gehlsen (charts), Aug.	88
New preparation facilities in 1953 (table), Feb	84	Coal Mining Institute of America Report of 67th meeting, Jan	116	Remote control mining at Mech. Mining works 350 ft beyond highwall, Jan	64
Pennsylvania Operators ask revision of rail rates, Feb	180	Conveyors		Selenium rectifier substation serves Russell Fork SA, A. M. Ayers, Sept	102
Pennsylvania planning board outlines program, Feb	168	Automatic maintenance of belt tension, Apr	116	Trolley lines—how to cut costs, Jan	96
Power through concentration (e), Sept	69	Belt splicing under pressure, Jan	81	Wire-size calculations sped by formula, May	116
Resurgent coal (e), Nov	69	Better continuous mining with conveyor haulage J. B. Long (table), Feb	92	European Coal & Steel Community to get big U.S. loan, May	140
Selling guide published, June	142	Cable belt conveyors, May	150		
United States bituminous and lignite production by methods of mining and mechanical cleaning (table), Feb	87	Converted elevator improves belt loading, Sept	92	<b>F</b>	
Utility-fuel competition points to upturn in bituminous (table), Nov	70	Drive design improves slope-belt operation at Chicago, Wilmington & Franklin Coal, R. R. Richart, Jan	70	<b>Face Preparation</b>	
White House sets coal study as governors ask action, Aug	115	Equipment sales in 1953 (tables) Young & Anderson, Feb	87	AMC Coal Convention report, June	102
Bituminous Coal Research Meeting — research and development theme, May	148	4½-mile belt from Muskingum mine to power plant, A. E. Flowers (chart), June	80	Allen mine—service for modern mining, Oct	82
Project to develop data on spray-type stack-dust collectors, Apr	138	How to splice conveyor belts, A. F. Matheis, Mar	102	Box saves carbide bits, Nov	110
<b>Blasting see Stripping</b>		Main slope conveyor at Peabody handles 1,200 tpd, Nov	142	Breaking coal with chemicals, Oct	78
<b>Bureau of Mines</b>		Maintenance ideas (charts), June	116	Bugdusting—long-handle hoe, a safer way, July	106
Annual report, Apr	181	Mech Mining extensible belt conveyor carries coal 1,000 ft, A. E. Flowers, Oct	96	Chemical coal-breaking, May	150
Equipment approvals, Jan 126, Feb 162, Mar 240, Apr 146, May 155, June 148, July 130, Aug 154, Sept 152, Oct 147, Dec	130	Mexican coal mine modernized with all-conveyor haulage (table) W. H. Lesser, July	71	Chemical coal breaking at the Orient No. 1 of Chicago, Wilmington & Franklin Coal, Oct	78
Gas ignition seen as danger warning, July	88	New-type drive permits use of more economical belt, Aug	96	Crichton Coal & Coke—opening a coal mine today, July	78
Outlines policy for synthetic-fuels research, Feb	146	Oveland belt for Ohio, offers new economies, says backers, Feb	168	Cutting cost with safety, Apr	70
Reorganization, shifting of top personnel, Nov	132	Peabody Coal mines 14,500 tpd at new No. 10 mine with all belt haulage system (map), Sept	82	Daylight mine room-panel mining, Feb	102
Survey group named to study organizational setup, Jan	112	Portable extensible belt conveyor for continuous intermediate haulage, Harold Davis (chart), June	88	"Ever-Sharp" jacks increase safety and cut operating cost, Dec	65
Survey team suggests switch of coal mine inspection to states, Sept	138	Riverlake Belt Conveyor Lines shows overland belt model, July	111	Freeman No. 4 modern methods, Apr	78
<b>C</b>		Stephen Elkhorn Fuel gets high tons in low coal with bridge conveyors (tables), Sept	106	Freeman teams high production and quality preparation, Aug	82
<b>Cabinet Committee of Energy Supplies and Resources</b>		Cost-cutting cost behind the face (report), Jan	54	Hydraulic-drill pump added to shortwall truck, May	114
Appointed: task group named, Sept 153, Oct	137	<b>D</b>		Lancashire 15—modern face methods, Harold Davis, June	66
<b>Coal</b>		<b>Drainage</b>		Mining highlights—1953, Feb	82
Atomic power no threat, coal use to grow, AEC says, Sept	135	Anthracite Mine Drainage Study Committee named to push project, Jan	126	Mining problems today, Apr	70
Better management today stressed by leading coal companies W. A. Stanbury Jr., Aug	55	Barrels and portable pump eliminate need for sidetrack, July	106	Northwest Coal modernizes mine and plant, simplifying preparation, Oct	104
Better selling . . . key to better coal markets (table), Mar	166	Cutting cost behind the face (report), Jan	54	Peabody new No. 10 mine features flexible preparation, Sept	80
Coal policy for today, Oct	70	Pennsylvania Gov. J. S. Fine seeks aid for mine drainage, Aug	118	Peabody No. 10 installs chunk breaker on loader to limit coal size, Sept	94
FOA coal-export program takes shape slowly, Nov	129	<b>Drilling see Face Preparation</b>		Quality with efficiency—South-East Coal's Big Chief mine, Nov	74
FPC statistics show greater coal consumption by electric utilities, Sept	144	<b>Electricity</b>		Shunt device increases safety, Apr	96
50 biggest mines in 1953 J. R. Forsythe (table), Apr	77	American Power Conference scans fuels future, May	159	Stephen-Elkhorn gets high tons in low coal, Sept	106
Government to ship 10 million tons of coal to other nations, Sept	140	Armature stands made from standard parts, Jan	94	Top benching solves thick coal problem at Kingmine, Nov	92
Home beginning (e), Dec	49	Batteries—how to repair a damaged battery, Nov	110	What might have been in steep pitch mining, July	76
How coal's leaders see 1954, Feb	70	Cleaning-plant light bulbs—how to get longer life from bulbs, Nov	106	<b>Fires</b>	
How the top 15 coal-producing groups ranked in 1953 (table), Mar	229	Conversion equipment—how to parallel it, L. W. Scott, Feb	103	Federal aid for fighting mine fires approved, Oct	170
Industry leaders boost 1953 output, Mar	229	Drive design improves slope-belt operation at Chicago, Wilmington & Franklin Coal, R. R. Richart, Jan	70	Fire damage totals \$635,000 at three coal companies, Feb	170
Missouri School of Mines conference probes coal's problems and promises, Jan	122	Edison, Thomas A., honored, Nov	144	Foreign Oil Policy Committee	
More . . . or less? (e), Apr	69	Electric braking of AC mine-hoist drives, A. H. Huelsman, Mar	185	Sponsors meetings to work for laws to limit import of cheap foreign oil, Apr	138
New Mexico's coal industry studied, Feb	170	Electricity replaces steam in hoisting (charts), May	100	<b>Foremen</b>	
No weighting (e), Nov	49	High-level trolley wire handles supply-track crossing, May	118	Better roof sounding, Chester Webb, Mar	198
Outlook for coal in 1970 (charts), Sept	136	Hoisting by electric drives replaces steam-powered engines (charts), May	100	441 men complete Penn State Mining Extension courses, July	122
Pennsylvania Conference seeks national support for coal program, Nov	129	How to recharge a repaired cell in a storage battery, Apr	114	The future is here! Oct	110
Policy for progress (e), Oct	69	Jamison Coal & Coke No. 9 mine tests glass-bulb rectifier, D. A. Haley, Oct	75	Handling personnel problems, T. H. Kemp, Feb	122
Power for progress—proposals for advancing the coal industry (e), June	69	Mexican coal mine modernized with up-to-date power-distribution (table), W. H. Lesser, July	71	How to enjoy recreation on company time, June	110
School construction offers opportunities to coal, June	140	<b>Fuel</b>		Integrated supervision, Aug	92
State governors to confer on coal industry problems, Apr	138	American Power Conference scans fuels future, May	159	Meeting the mine committee, July	90
TVA coal-buying policies hit by Southern Appalachian Coal Operators' Association, June	140	<b>Freight rates</b>		Pointers for the new boss, May	110
TVA use of coal rising sharply, Mar	229	Coal freight rates cut urged, May	180	Pressure and resistance—facing 1954, Jan	88
Total selling (e), Aug	53	Cutting mine-to-market costs is the coal policy for today, Oct	70	Seven deadly sins in mine supervision, Apr	108
Utah mystery: prehistoric mining? Feb	111	Pennsylvania operators ask revision of rail rates, Feb	180	Speaking in public, Sept	110
Utility coal continues growth according to Federal Power Commission, Sept	144	<b>Fuel</b>		Supervision is a science, Nov	102
Utility-fuel competition points to upturn in bituminous (table), Nov	70			Year-end checklist for foremen, Dec	95
Virginia Legislature okays study of state's coal use, Apr	138				

Atomic power—when and how much?	134
Nov	
Cabinet Committee of Energy Supplies and Resources — appointed — task group named, Sept 153, Oct	137
Foreign Oil Policy Committee intensifies campaign against residual oil imports, Jan	111
Gas industry planning large expansion, Nov	152
Government policy outlined on synthetic-fuels research, Feb	146
Governor's Fuel Conference, Nov	136
Imports of foreign oil and gas fought, Mar	230
Industry presses fight on residual imports, Feb	182
Natural-gas rate increases jump sharply, May	140
Natural gas substitutes said to insure supply, Nov	130
Synthetic fuels report by Department of Interior, June	148

## Maintenance

Amherst Coal increases safety and cuts operating cost with "ever-sharp" jacks, Dec	65
Architecture in coal mining—new plant features low installation and maintenance costs, Aug	76
Armature stands made from standard parts, Jan	94
"Baker's showerbath" for speedy cleaning of large haulage units, Nov	106
Belt—how to determine length of belt in a roll, Feb	118
Belt splicing under pressure, Jan	81
Buckeye Coal relies upon careful planning & maintenance of close-coupled strip mining, Harold Davis, Sept	97
Car stop holds low cars, Dec	104
Carbide bits saved by use of boxes, Nov	110
Chains last a year longer with changed miner heads at Russell Fork Coal, Feb	118
Chute control smooths belt loading, Aug	98
Chute Bros. Coal effective maintenance keeps equipment at work, Apr	104
Cleaning—moving belt cleaner saves clean-up labor at Russell Fork, Feb	107
Cleaning-plant light bulbs—how to get longer life from bulbs, Nov	106
Coal Age Preparation Guidebook, Mar 53, Colonial Coal Mining makes truck maintenance easier with portable table, Oct	116
Consolidation Coal builds central shop for repairing and rebuilding mining machinery, J. H. Edwards, July	82
Continuous-mining unit at Consolidation Coal averages 47 tons per man-shift including haulage and maintenance, Jan	76
Conveyors—how to splice conveyor belts, A. F. Mathis, Mar	102
Cost-cutting possibilities of modern equipment in the coal policy for today, Oct	70
Crowe Coal Co. installed safeguards to protect dragline, Oct	114
Crowe Coal Co. speeds machine-shop jobs with hot-oil baths for parts, Oct	118
Cutting cost behind the face (report), Jan	64
Cutting supply cost (report), Sept	70
Drilling—bit-head designs prove important factor in both drilling speeds and tool life, Mar	206
Fire-retardant coatings, P. F. Yopes, Dec	74
Forge—improved forge has winged hood to handle long materials at South-East Coal, Feb	120
High-capacity stripping with foresighted maintenance at Jeddo-Highland Coal, Harold Davis, Feb	112
Hydraulic press improvement, June	116
Impact-wrench tester, Apr	116
Installation of hose couplings made easy, Aug	98
It pays (e), July	49
Loader and conveyor maintenance idens (charts), June	116
Lubricant does penetrate wire rope, W. I. Lex (charts), May	97

Lubrication — mechanical stirrer saves time, Feb	118
Lubrication engineers canvass mining-machinery problems, May	160
Maintenance for lowest cost (report), July	50
Mine-shop changes reduce maintenance time on loader resistance and shuttle-car chain at Guyan Eagle Coal, Dec	102
More than repair (e), Mar	163
Mounted maps easily marked, Dec	104
On the record (e), July	49
Pecks Run's nine steps for successful maintenance, Dec	60
Pittsburgh Coal maintenance program, A. E. Flowers, Apr	97
Poehontas Fuel outlay for capital improvements, Apr	133
Rebuilding production equipment, May	106
Roller-type lubricator doubles wire-rope life, June	118
Rope—fixing a broken strand of cutting-machine rope, Mar	204
Rubber-mounted work bench from Peabody, Sept	92
Shop-built stand eases engine rebuilding, Oct	118
Spad hangers save time, June	87
Stephens Elkhorn cuts trolley wire channels at lower cost, Sept	116
Storing rubber tires to prevent damage, July	108
Trolley-lines—how to cut costs, Jan	96
Wire-rope life doubled by roller-type lubricator at barge-loading facilities, June	118

## Management

AMC scans needs and progress, June	103
Better management today stressed by leading coal companies, W. A. Stanbury Jr., Aug	55
Colorado Fuel & Iron Corp. service for modern mining, Oct	83
Cutting supply cost (report), Sept	70
Growing trend to independent operation, May	139
How to enjoy recreation on company time, June	110
If he asks a raise . . . a footnote to top management, Feb	124
Maintenance for lower cost (report), July	50
19 mining problems today, Apr	70
Pecks Run combines progressive ideas with good management—employee teamwork, A. E. Flowers, Dec	86
Pointers for the new boss—hints for foremen, May	110
Seven deadly sins in mine supervision, Apr	108
Supervision is a science, Nov	102

## Mechanization

Allen mine's service for modern mining, Oct	83
Barnes & Tucker Co's keys to higher efficiency at Lancashire 15, Harold Davis, July	66
Continuous mining with conveyor haulage (table) J. B. Long, Feb	92
Cutting cost behind the face (report), Jan	54
Cutting supply cost through more efficient handling and delivery methods (report), Sept	70
Equipment sales in 1953 (tables) Young & Anderson, Feb	87
47 tons per man-shift with continuous-mining unit at Consolidation Coal, Jan	76
Freeman No. 4 all-belt haulage and modern methods for high efficiency, Apr	78
The future is here! Oct	110
Future production setup will use more machines (e), May	69
Konnerth miner (charts), June	76
Longest extensible belt conveyor built for Mech Mining, A. E. Flowers, Oct	96
Mechanical loading equipment in use in 1952, with 1953 sales table, Feb	88
Mining highlights—1953, Feb	82
New machines, new goals in Polish mine, Aug	116
Opening a coal mine today—4 steps at Crichton Coal & Coke, July	78
Peabody Coal mines 14,500 tpd at new No. 10 mine (map), Sept	82
Peabody No. 10 has crawler-mounted unit handling three jobs, Sept	96
Peabody No. 10 installs chunk breaker on loader to limit coal size, Sept	94
Rebuilding production equipment, May	106
Remotely controlled underground continuous miner works 380 ft beyond highwall at Mech Mining, Jan	64
Roof-bolting at Kingmine permits thick coal mining from top of seam down, Nov	92
Russian coal mining report, Seabrook Hull, Dec	72
"Stapleton's bathtub" at Consolidation Coal provides separate transportation for each unit crew, Mar	190
Stephens Elkhorn gets high tons in low coal with bridge conveyors (tables), Sept	106

## Trailerphones for modern mine communi- Mining highlights—1963. Feb.

170

Cabinet Committee of Energy Supplies and Resources appointed and task group named, Sept 155, Oct	137
Coal policy for today is more support of research activities, Oct	70
Electrocarbonization expert forms research company, Nov	156
First coal research laboratory to be dedicated, Mar	240
First industry-owned coal laboratory dedicated, May	148
First Techno-Sales Conference pinpoints market research, May	148
Forestry research, Ben Rhodes, May	83
Government policy outlined on synthetic-fuels research, Feb	146
How coal's leaders see 1954, Feb	70
Lubricant does penetrate wire rope, W. I. Lex (charts), May	97
P&R plans research on anthracite gasification, Oct	166
Virginia Legislature okays study of state's coal use, Apr	138
Rocky Mountain Coal Mining Institute 50th annual meeting themes: coal's present and future, Aug	124

#### Roof Control

Better roof sounding, Chester Webb, Mar	198
Coal Mining Institute of America meeting, Jan	116
Concrete pier forms made with discarded oil barrel ends, Apr	114
Concurrent roof bolting with continuous mining, Apr	102
How wood pins serve Mary Gail, Mar	182
Improved roof conditions with chemical coal breaking at Chicago, Wilmington & Franklin Coal Orient No. 1 mine, Oct	78
Metal stoppings save time at Peabody No. 10 mine, Sept	95
Peabody Coal designs machine for handling steel timber, Sept	93
Roof bolt installation, E. F. Huston, (charts), June	98
Thick coal mining from top of seam down made possible at Kingmine by roof-bolting, Nov	92
Yielding steel ring support for tunnel at Coldale Colliery, Charles S. Kuebler, (charts), Apr	92
Russia Report on Russian coal mining, Seabrook Hull, Dec	72

#### S

#### Safety

All-Ohio Safety Congress meeting of the Mining Section at Columbus, Ohio, July	124
Allen mine's service for modern mining, Oct	83
Amherst Coal increases safety and cuts operating cost with "ever-sharp" jacks Dec	65
Bugdusting with long-handle hoe, July	106
Bureau of Mines awards "Sentinels of Safety", July	144
Bureau of Mines points to gas ignitions as danger warning, July	88
Bureau of Mines survey team suggests switch of coal mine inspection to states, Sept	138
Car-coupling aid (chart), June	114
Coal Mining Institute of America meeting, Jan	116
Coal policy for today is to improve safety for workers, Oct	70
Concrete piers from discarded oil barrels for roof supports cut costs, Apr	114
Crackdown by the West Virginia Dept. of Mines closes 14 mines, Aug	118
Fire-retardant coatings, P. F. Yopes, Dec	74
Fumes hood rests on jib hung below crane rails, July	108
Ganey mine classification made by USBM reversed by review board, Jan	112
Gulf Smokeless Coal men at Tama No. 2 mine complete safety training course, Aug	116
Harwick wins Pennsylvania's bituminous first aid contest, Oct	167
High-level trolley wire handles supply-track crossing, May	118
Holmes Association safety awards, June 144, Oct	167
Jones & Laughlin coal division sets safety record, May	140
Kanawha Valley program puts safety before community, Nov	132
Key factors in fewer accidents and more tonnage, May	71
Mine-built fire truck a versatile unit at Woodward Iron, Jan	94
Mine fires in three states reported, Jan	126
Mine Inspectors 44th annual meeting discusses safety, Aug	128
National Mine Rescue Association scans safety needs, Aug	120

National Safety Congress Meeting, Dec. 19 mining problems today, Apr	77
Ohio Miners Safety and Accident prevention meeting, Oct	70
Orient No. 1 mine of CW&F credits greater safety for workers to chemical coal breaking, Oct	78
Peabody No. 10 achieves 100% accident training, Oct	138
Peabody No. 10 uses locomotive for ambulance, Sept	93
Philadelphia & Reading marks 50th year of safety program, Sept	144
Pittsburgh Coal steps up safety training, Mar	230
Protective devices for electrical equipment, May	150
Red Jacket Coal marks safety high, Mar	234
Robena tops 24 aid teams in Southwestern Pennsylvania, Sept	158
Roof-bolting at Kingmine permits thick coal mining from top of seam down, Nov	92
Safety—new high in '53 (table), Feb	90
Shunt device increases safety, Aug	96
Stop signs at room necks warn Peabody miners, June	91
U.S. coal-mine fatalities during 1953 and 1952 (table), Feb	90
West Va. All-State First Aid contest won by Gary team of U.S. Steel, Nov	130
W. Va. Dept. of Mines closes 32 mines as risks, Oct	168
West Virginia safety conference sessions on coal mining, June	150
Salvage—bond salvage program saves \$5000 a year at Jones & Laughlin's Vesta No. 5 mine, Nov	94
Shafts	
Speedy shaft construction at Crucible Steel, Mar	194
